MAGNIFY SLASH\PAY

Remove the Equipment Barrier

Free terminal placement for qualified Slash\Pay deals

Approved for Valor 550 series terminals.

Equipment cost shouldn't kill a qualified deal.

The merchant sees the value. Free placement removes the upfront cost as the reason the deal stalls.

No Upfront Captial
Merchant does not purchase the terminal outright

Fast Qualification
Pre-qualify with a statement, or place and validate.

Slash\Pay Configured
Terminal set up for Dual Pricing or True Cash Discount

Protected Program
Magnify retains final discretion on qualification

If statements are collected, they must confirm processing volume of

$15,000
PER MONTH OR MORE

Program Options:

OPTION 1
Pre-Qualify

Provide the merchant's most recent processing statement showing approximately $15,000 or more in monthly volume to qualify before placement.

OPTION 2
Place & Review

The terminal may be placed first. Magnify reviews the merchant after their first full month of processing to validate the placement.

AGENT ACCOUNTABILITY

If the merchant is placed before validation and does not ultimately qualify, the terminal becomes the agent's responsibility and may be deducted from the agent's residuals.

Magnify retains final discretion on qualification and exceptions.
